In, 1954 Friedman prepared the cervicography. In 1972 Philpott and Castle, working in Rhodesia (now Zimbabwe), developed the first partograph, by utilizing Friedman's cervicograph, and adding the relationship of the presenting part to the maternal pelvis.

Villitis of unknown etiology Ashkar A, Black G, Wei Q, He H, Liang Villitis of unknown etiology (VUE), also known as chronic villitis, is a placental injury. PMID 16098874. VUE is an inflammatory condition involving the chorionic villi (placental villi).

090. VUE is a recurrent condition and can be associated with intrauterine growth restriction (IUGR). 2004. American Journal of Obstetrics and Gynecology. 193 (2): 483–488. cause“;. 1016/j. VUE recurs in about 1/3 of subsequent pregnancies. ajog. doi:10. IUGR involves the poor growth of the foetus, stillbirth, miscarriage, and premature delivery. 12

It is intended to provide an accurate record of the progress in labour, so that any delay or deviation from normal may be detected quickly and treated accordingly. However, a Cochrane review came to the conclusion that there is insufficient evidence to recommend... To accommodate smoother penetration of the vagina during sexual intercourse or other sexual activity, vaginal moisture increases during sexual arousal in human females and other female mammals. This increase in moisture provides vaginal lubrication, which reduces friction. The texture of the vaginal walls creates...

Straub Benioff Medical Center Straub envisioned a clinic providing specialized care in five major fields: Obstetrics and Gynecology, Surgery, Internal Medicine, ENT, and Clinical Pathology Straub Benioff Medical Center is not-for-profit health care system with a 159-bed hospital in Honolulu, and a network of neighborhood clinics

An ally of the Tea Party movement, Brannon unsuccessfully sought the Republican nomination for U.S. Senate in the 2014 and the 2016 elections. He came in second place both times, losing the 2014 race to Thom Tillis and the 2016 race to Richard Burr. VUE is diagnosed in 7–10% placentas in pregnancies. Roughly 80% of the VUE cases are in term placentas (greater than 37 weeks of pregnancy). A case of VUE in a placenta less than 32 weeks old should be screened for...
