purpose of the structures is
unclear, but may have been to
house large numbers of
people, religious leaders, or
royalty. Whereas the term
"great house" typically refers
to structures in Chaco
Canyon, they are also found in
more northerly locations in
the San Juan Basin, including
the Mesa Verde region.

Architecture The term comes from Latin *architectura*; from Ancient Greek ἀρχιτέκτων (*arkhitéktōn*) 'architect'; from ἀρχι- (*arkhi-*) 'chief' and τέκτων (*téktōn*) 'creator'. This treatise exerted immense influence throughout Europe, being the first handbook that emphasized Architecture is the art and technique of designing and building, as distinguished from the skills associated with construction. Historical civilizations are often identified with their surviving architectural achievements. It is both the

process and the product of sketching, conceiving, planning, designing, and constructing buildings or other structures. *Prospetiva* (Complete Works on Architecture and Perspective). Architectural works, in the material form of buildings, are often perceived as cultural symbols and as works of art aafa574214

History of architecture
Thames The history of architecture traces the changes in architecture through various traditions, regions, overarching stylistic trends, and dates. Jarzombek, Mark (2013). (2014). Wiley Press. Architecture of First Societies: a Global History. Jones, Denna, ed. The beginnings of all these traditions is thought to be humans satisfying the very basic need of shelter and protection. Architecture The Whole Story. The term "architecture" generally refers to buildings, but in its essence is much broader, including fields we now consider specialized forms of practice, such as urbanism, civil

engineering, naval, military,
and landscape architecture

Architecture of Africa
Throughout the history of Africa, Africans have developed their own local architectural traditions. Tracy, James D. City Walls The Urban Enceinte in Global

Perspective. In some cases, broader regional styles can be identified, such as the Sudano-Sahelian architecture of West Africa. (2000). *Architectures de Madagascar*. A common theme in traditional African architecture is the use of fractal scaling: small parts of the structure tend to look similar to larger parts, such as a circular village made of circular houses. Globalization It developed its

current meaning sometime in the second half of the 20th century, and came into popular use in the 1990s to describe the unprecedented international connectivity of the post-Cold War world. The term globalization first appeared in the early 20th century (supplanting an earlier French term *mondialisation*). This is made possible by the reduction of barriers to international trade, the liberalization of capital movements, the development of transportation, and the advancement of information and communication technologies.
